Sergey Yezhkov is an SVP and the Co-Head of Global Business at EPAM Systems. He also oversees the strategy and operation of EPAM's Global Life Sciences & Healthcare portfolio.

Mr. Yezhkov has more than 16 years of technology and management experience including extensive proficiency with global delivery models. Prior to joining EPAM in 2006, he served as Managing Director and Chief Technology Officer for Vested Development Inc. (VDI), where he was instrumental in driving the growth of VDI from its foundation to its acquisition by EPAM.

Upon joining EPAM, Mr. Yezhkov was responsible for leading the Independent Software Vendors & Technology Industry Business Unit, helping to cement the foundation for EPAM's unique Product Development mindset and approach.

Mr. Yezhkov has a master's degree from Moscow State University.
